

Thank You!

The Belmont Sports Boosters would like to thank all who helped make our 1st Biennial Sports Booster All Sports Fundraiser a HUGE success!!

So-it's been about a month since the Fundraiser and (as the work doesn't end right after the event is over) I'm finally caught up with everything enough and able to sit back and just reflect on the thoughtful and generous town that we have the pleasure of living in.

It's truly amazing to think 6-7 months ago when this idea was proposed in a meeting, it just bloomed/exploded.... don't get me wrong-it didn't "just happen"- there was A TON of hard- time consuming work put into this event.... BUT that night-to see in person the amount of people, businesses, families, coaches and athletes that came together and not only donated and bought items at the auction and/or raffles, but came together as a community and HAD FUN and showed how much support this town has for each other made it worth every minute. It was that night and is always a mind blowing experience to see this town at its finest... it truly is!

We would love to thank each and every person that contributed to the event in any way... sponsorships, donations, buying items at the auction, raffle tickets, auction workers, Booster members for helping grill, sell tickets, and all the other many jobs that the event entailed, the coaches and athletes for having that super fun "kids" play room and for helping serve and cleanup and again everything else you guys did! The money that we raised for our athletes was a true blessing, but (to us) the best and most rewarding part was to see and be involved with the supportive environment that the event pulsed with that night. It was humbling not only as a Brave but also as a member of the Belmont community.

As you all know the fundraiser was a huge success!

We had a "goal" in mind to make sure we could cover everything we wanted to for 2 years and I'm so happy to say you helped us make that goal, as we are not sure of exact numbers as we have bills to pay towards the event still, we hope that we exceeded that amount by a little to put towards our youth! It was a success because of all of you... BE PROUD!!

The event and the happenings of the next two years will be a learning process of how all this will work as you all know this is the first event and we will learn as we go, but rest assured that you all did your part and we will continue to work hard to put your money to good use supporting our Brave athletes and keeping them safe...

–Traci Austin (President of the Belmont Sports Boosters)
