

## CHANGE IN SCHOOL DAY HOURS

Our new construction project and building improvement project require a few small changes. One of those changes is the change in the hours of the school day and student calendar. Kramer Brothers are hoping to gain a week at the end of the school year to get a jump start on our project. To accommodate their request, the Board of Education voted to add 10 minutes to the end of our school day starting second semester. Beginning January 22nd, the school day will be 8:00am-3:30pm. This will allow enough hours and minutes of instruction, as required by WI DPI (with a cushion of 2 inclement weather days), to have students released on May 31st. If there are more than (the equivalent) two inclement weather days, April 15th and 16<sup>th</sup> will be used as make-up days. If there are more than 4 inclement weather days, additional days must be made up after May 31<sup>st</sup>.

If you have any questions, please call the school.
